Education

Bachelor of Information Technology [GPA : 7.47 / 10] [2022 - 2026]
Mepco Schlenk Engineering College, Sivakasi

Higher Secondary [92%] || SSLC [89%] [2020-2022]
Sri Gomathi Ambal Matric HSS, Sankarankovil

Skills Summary

Languages : Java
Front End : HTML5, CSS
Back End : Node.js, Express.js
Database : SQL , MongoDB
Dev Tools : Visual Studio Code, Git, GitHub

Projects

Wool Monitoring System – Farm to Fabric | Java, JDBC, MySQL 2023

- Built a Java-based tracking system for wool from farm to fabric.
- Integrated SQLPlus database for inventory and order management.
- Developed an E-commerce platform for wool producers and consumers.

Optimized Sentiment Analysis of TV Reviews Ranking |Python,Pandas, Matplotlib 2024

- Developed an advanced sentiment analysis model using deep learning techniques.
- Utilized AdamW optimizer for improved accuracy and performance.
- Implemented transformer-based models (BERT, RoBERTa,DistilBERT) for analyzing TV reviews.

TripTale – Travel Recommendation App | React.js, MongoDB 2025

- Developed TripTale, a full-stack travel web application using React.js and MongoDB.
- Implemented features for searching places, suggesting hotels, tour packages and viewing travel details.
- Designed an intuitive user interface with smooth navigation and interactive elements to enhance the user travel planning experience.

Certifications

- Infosys Certification in Java Programming
- Power BI Certification
- Infosys Certication in Sql
- Infosys Certification in Agile Methodology

Achievements

- Presented a deep learning project on sentiment analysis at a national-level tech symposium.
- Solved 260+ problems on LeetCode, strengthening Java core concepts and problem-solving skills.
- Completed Oracle's one-week Java workshop with practical training in enterprise-level development.
- Represented at district-level kabaddi tournaments, showcasing leadership, discipline, and teamwork.

Area of Interest

- Data Analysis
- Web Application Development
- Exploring New Technologies
- Traveling and Learning Through Real-World Experiences
